

Recommended Laser Printers for RR Donnelley (RRD) License Plate Decals

Please Note: All intended purchases for printers utilizing Batch printing of the Tab on Demand decal must be approved by ADOT prior to purchase!

The following information is offered as a guideline to Authorized Third Parties (ATP) to assist with determining which printing platform best suits the individual needs of each ATP for the printing of the Tab on Demand decal. Please do not place any orders for Batch printing until you receive approval from ADOT.

Printer Mfr	Model #	Printer Type	*Suggested Settings	** Duty Cycle (pages per month / per min)	Estimated Price Range
			* Please note: Settings are subjective and may vary from printer to printer. We recommend initial and periodic testing to ensure print quality.	** Please note: Monthly duty cycle rating is based upon an 8.5 x 11 page cycle. When selecting an appropriate printer model for production, other factors to consider are daily and/or hourly production volume. We recommend consulting with your printer equipment supplier.

Please Note: Of the printers our Angola engineers have tested to date, the above printers are being recommended for use with the RRD License Plate Decals. Please know that we do not claim to have tested every printer on the market, nor are we able to test every new printer introduced. We will continue to do research and testing however, as the need warrants and it is feasible for us to do so.
